## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 2-3 and 31-32 specifically and generically 1, 12-30 and 41-65, drawn to compounds, compositions, methods of making and methods of using compounds wherein only X1 is N.

Group 2, claim(s) 4-5, and 33-34 specifically and generically 1, 12-30 and 41-65, drawn to compounds, compositions, methods of making and methods of using compounds wherein only X2 is N.

Group 3, claim(s) 2-3 and 31-32 specifically and generically 1, 12-30 and 41-65, drawn to compounds, compositions, methods of making and methods of using compounds wherein only X3 is N.

Group 4, claim(s) 6, 9, 35 and 38 specifically and generically 1, 12-30 and 41-65, drawn to compounds, compositions, methods of making and methods of using compounds wherein only X1 is N.

Group 5, claim(s) 7, 10, 36 and 39 specifically and generically 1, 12-30 and 41-65, drawn to compounds, compositions, methods of making and methods of using compounds wherein only X1 is N.

Group 6, claim(s) 11 and 40 specifically and generically 1, 12-30 and 41-65, drawn to compounds, compositions, methods of making and methods of using compounds wherein the core is tricyclic (see claim 11).

Group 7, claim(s) generically 1, 12-30 and 41-65, drawn to compounds, compositions, methods of making and methods of using compounds 2 or more of X are N.

2. The inventions listed as Groups 1-7 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The contiguous common core is N-C(O) and this is

common to other compounds such as that have  
activity as kinase inhibitors. Due to this, the instant claims do not have a special technical  
feature and the instant claims lack unity of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
